

Mural Installation Manual

It's simple follow the steps.

Step. 1.- Clean working area and center the mural. we usually center off the windows or doors. Also as a rule of thumb the mural should be at least 36" of the ground.

Step. 2.- You can install one of two ways.
(1.- Pre-drill and insert plastic screw grip/anchors and then mount and screw in the mural.)
(2.- Mount and drill. One person holds and another drills the hole and inserts the anchor. Do one hole at a time. Be sure is leveled.

Enjoy!
